

LED EDGE

Make your structure glow with high-quality, linear, LED accents wherever your design requires it. Use our modular magnetic connectors and proprietary extrusion to wrap an LED stripe around your corners. Engage our expert welders to produce a custom shape that installs in a snap.

- Ultra bright 6000K white LEDs. RGB available upon request.
- 80mm wide extrusion that connects to our SEG systems.
- UL-listed electrical components with a battery-powered option.
- Available in 24", 39", 46.5", and 93" EZ Wall rental sizes.
- Available for purchase in standard or custom sizes.

Environments that demand attention and get noticed.
