

HINT OF LIGHT

A floating LED bar behind your SEG graphic.

Hint of Light is a floating LED behind your SEG graphic. Available across Moss SEG systems, this crisp linear light is custom-locatable.

- You decide - design your custom light placement virtually anywhere in your panel, wall or ceiling canopy.
- Create long runs of light with miters, or with custom acute and obtuse angles.

- Integrates with EZ Fabric Wall®, Moss Groove™ and Construct® framing.
- Thinnest applications are 40mm.
- Light width: 80mm.
- Note, no critical art alignment or art within 4" of the illuminated area.
- 6,000k lighting is standard; other temperatures and dimming control are available.
- RGB LEDs are available.
- 12v power supplies are internal to the wall structure.
- Components are UL-listed.
