

## HYPELIGHT™

### The ideal solution for temporary lit dimensional signage.

- Developed to offer the widest range of materials and visual effects on the market. Our ability to match edge painting to printed fabric and rigids will ensure a stunning result.
- Direct connected power is used to ensure your connection remains stable-no matter what.
- Dimensional elements install using magnets right over the fabric – no need to cut additional holes for mounting.
- Our solutions team will work with you to create the ultimate solution for your design.

### A simple solution with endless impact.
