MOSS RENTS CATALOG

Rent the structure. Own the moment.

YES, WE HAVE THAT!

Big ideas don't always need a custom build.

Moss Rents brings together rental shapes, structures and systems, built from years of learning what our customers ask for most.

Build a gathering place. Give your brand a bigger presence. Turn an open floor into an experience. Start with one element or combine several to build something entirely your own.

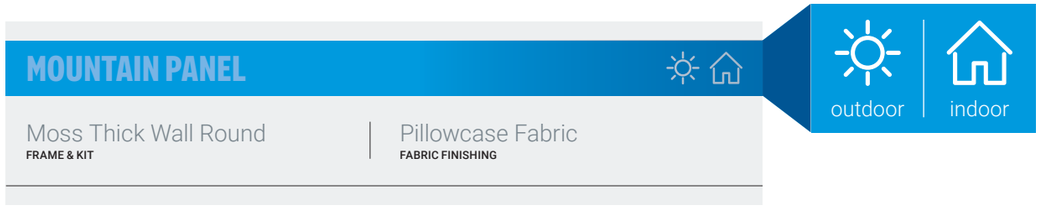

THIS DOCUMENT HAS CLICKABLE LINKS FOR QUICK NAVIGATION

Not sure where to start? Here's a suggestion of how to use the Moss Rents catalog:

1

Know Your Environment

Creating an indoor or outdoor experience? Look for the environment icons throughout the catalog to find structures suited to your setting.

2

Build With Confidence

Every Moss rental includes proven frame systems, white fabric, essential hardware and assembly instructions, backed by safety-minded support from the Moss team. Explore the Frame & Kit and Fabric Finishing sections to see what's included and how you can make it your own.

JUMP TO THE BUILD WITH CONFIDENCE SECTION

3

Choose Your Shapes and Elements

Explore by shape, product family, or application. Walls, arches, columns, sculptural forms, lightboxes and hanging elements can stand alone or work together to shape a larger experience.

JUMP TO THE BEGINNING OF THE RENTAL STRUCTURES

Bring us your idea.

You don't need a finished plan, just an idea. Share the space and the goal. Our Moss representatives know the products inside and out and can walk you through the right fit, cost, and timing so you can make an informed choice.

BUILD WITH CONFIDENCE

How Moss Rents works.

Every Moss rental begins with a structure designed to perform. Proven frame systems, thoughtfully fitted fabric and straightforward assembly provide a reliable foundation for the experience you want to create. This section introduces the two elements behind every rental solution: the frame that gives it form and the fabric that brings it to life.

BRING US YOUR IDEA

Share the space, the dates and the goal. You don't need a finished plan. Your Moss team will help you choose structures built for your setting, indoor or outdoor.

WE CONFIRM FIT, COST AND TIMING

You'll know exactly what's included before you commit: the frame, white fabric, base hardware and assembly instructions. Want custom printed graphics? They're purchased separately and can be designed for reuse at your next event.

IT SHIPS READY TO BUILD

Your rental covers 30 days from the day your order ships, so factor in transit time when you plan. Assembly requirements vary by product, and your Moss team can walk you through setup.

SEND IT BACK WHEN THE SHOW WRAPS

Pack it in the case, box or crate it arrived in and ship it back. Add pre-paid return shipping to make the return as easy as the delivery.

FRAME & KIT

The frame gives the idea form.

LIGHTBOX FRAMES

MODULAR WALL SYSTEM FRAMES

Every great build starts with the right structure. Moss frame systems are designed for strength, a precise fabric fit and straightforward assembly. From lightweight indoor displays to structures engineered for outdoor use, there's a system for the job. You'll find the frame type identified on each product page.

Round Tube Systems

Moss Classic Round®

Lightweight, easy to transport and quick to assemble. Shock-corded aluminum tubing with snap-button connections makes setup straightforward, while the pillowcase fabric creates a smooth, finished look. A practical choice for indoor displays and dimensional shapes.

ROUND TUBE SYSTEMS RENTAL STANDARD

- Anodized aluminum frame with standard silver finish, shock corded sections, and snap button connections
- Stabilizing baseplates for floor standing elements
- Unprinted white, wrinkle-resistant, opaque fabric
- Pick point eyebolts for structures 10 feet tall and over
- Typical assembly: 2 people, approximately 30 minutes
- Assembly instructions and hardware included
- Digital fire-rated certification is available upon request
- Ships in corrugated boxes, carrying bag or case

Moss Thick Wall Round Tube

When the project calls for added strength, Thick Wall Round Tube steps up. Its heavier-wall aluminum construction and swage connections provide added stability, making it the preferred choice for outdoor applications.

ROUND TUBE SYSTEMS OPTIONS FOR PURCHASE

- Custom frame sizes
- Custom color powder-coated frames (RAL colors)
- Custom dye-sublimation printing
- Specialty fabrics

ROUND TUBE SYSTEMS OPTIONAL SERVICES

- Pre-paid return shipping

Square Tube Systems

Moss Groove® Square

Clean lines. Crisp graphics. A precision square-profile frame with a sewn-in, PVC-free gasket for a smooth, evenly tensioned fabric finish that puts your graphics first.

SQUARE TUBE SYSTEMS RENTAL STANDARD

- Anodized aluminum frame with standard silver finish
- Stabilizing baseplates for floor standing elements
- Unprinted white, wrinkle-resistant, opaque fabric
- Pick point eyebolts for structures 10 feet tall and over
- Assembly instructions and hardware included
- Digital fire-rated certification is available upon request
- Ships in case, box, or crate

Square Tube

A strong, versatile aluminum frame for large panels, modular walls and borderless displays. Designed to support expansive fabric surfaces with minimal visible framing, it lets the image take the spotlight.

SQUARE TUBE SYSTEMS OPTIONS FOR PURCHASE

- Custom frame sizes
- Custom color powder-coated frames (RAL colors)
- Custom dye-sublimation printing

SQUARE TUBE SYSTEMS OPTIONAL SERVICES

- Pre-paid return shipping

SQUARE TUBE SYSTEM FRAMES

Lightboxes

Moss Radiance™

Turn up the impact with brilliant, even illumination. Moss Radiance combines modular aluminum framing with proprietary LED technology to bring backlit graphics to life. The Illuminedge™ product line delivers consistent lighting, energy efficient performance and straightforward assembly.

JUMP TO THE LIGHTBOXES CHAPTER

LIGHTBOXES RENTAL STANDARD

- Anodized aluminum frame with standard silver finish
- Available in 100mm, 150mm, and 200mm depths, single and double-sided
- Preinstalled LED modules with 50,000+ hour rated life 7W per square foot, 6,000K bright white illumination
- Tension Lock™ corners with single tool assembly and no loose screws
- ETL listed
- Stabilizing baseplates for floor standing elements
- Blockout liner
- Pick point eyebolts for structures 10 feet tall and over
- Assembly instructions and hardware included
- Digital fire-rated certification is available upon request
- Ships in case, box, or crate

LIGHTBOXES OPTIONS FOR PURCHASE

- Wall-hanging lightboxes with Z-shaped cleats
- Custom frame sizes
- Custom color powder-coated frames (RAL colors)
- Custom dye-sublimation printing
- Specialty fabrics

LIGHTBOXES OPTIONAL SERVICES

- Pre-paid return shipping

This product is covered by one or more of the following U.S. Patent Number(s): 8,956,071 as well as additional pending U.S. Patent(s) owned by Moss Holding Company.

Modular Wall System

EZ Fabric Wall System®

One system. Plenty of possibilities. EZ Fabric Wall connects panels, corners, doors and lightboxes into flexible modular environments. Its Moveable Lock system uses just one tool for quick, secure connections, while continuous fabric graphics create a clean, cohesive look across the build.

JUMP TO THE EZ FABRIC WALL SYSTEM® CHAPTER

MODULAR WALL SYSTEM RENTAL STANDARD

- 80mm anodized aluminum extrusion frame with standard silver finish
- Double-sided SEG fabric, front and back of frame
- Unprinted white, wrinkle-resistant, opaque fabric
- 8 Movable Locks per frame
- Torx tool included
- Wire management holes on all four sides
- Glide bumper leveling feet
- Weight: 1.010 lbs/ft
- Ships in case, box, or crate

MODULAR WALL SYSTEM OPTIONS FOR PURCHASE

- Custom color powder-coated frames (RAL colors)
- Custom dye-sublimation printing
- Specialty fabrics

MODULAR WALL SYSTEM OPTIONAL SERVICES

- Pre-paid return shipping

FABRIC FINISHING

The surface sets the experience.

The frame gives it shape. The fabric brings it to life. Keep it clean and architectural with white fabric or make it your own with custom printed graphics. From smooth, tailored finishes to seamless walls and illuminated displays, Moss offers the right fabric finish for the look you want to create.

GOOD TO KNOW

The right fabric changes the look and feel of a space. Opaque creates a solid graphic surface. Sheer adds transparency, layering and depth. More sustainable fabric options are available for select applications.

White fabric is included with rental frames. Custom printed graphics are purchased separately and can be designed for reuse.

Round Tube Systems

Pillowcase–Style

Smooth curves. Clean finishes. Stretch fabric slips over the frame and zips closed, following the shape of the structure for a seamless look. Designed for Moss Classic Round and Moss Thick Wall Round Tube frames.

RENTAL STANDARD

- **Unprinted white, wrinkle-resistant, opaque fabric**
- **Frame encased in fabric with zip closure finishing**

OPTIONS FOR PURCHASE

- **Custom dye-sublimation printing**
- **Specialty fabrics**

Square Tube Systems

Tensioned Fabric–Style

A crisp, tailored finish that puts the graphic first. Fabric with a sewn-in, PVC-free gasket fits securely into the Moss Groove frame channel, creating a smooth, evenly tensioned surface with minimal visible hardware.

RENTAL STANDARD

- **Unprinted white, wrinkle-resistant, opaque fabric**
- **Sewn-in, PVC-free gasket around fabric perimeter**
- **Front-surface fabric with exposed metal frame depth**

OPTIONS FOR PURCHASE

- **Custom dye-sublimation printing**
- **Specialty fabrics**

Projection Screens

Borderless SEG

All image. No visible frame. Fabric wraps around the frame edges and secures into concealed channels, creating a clean, uninterrupted surface. Ideal for projection and large format visuals where every inch of the image matters.

RENTAL STANDARD

- **Unprinted white, wrinkle-resistant, opaque fabric**
- **Sewn-in, PVC-free gasket around fabric perimeter**

OPTIONS FOR PURCHASE

- **Custom dye-sublimation printing**
- **Specialty fabrics**

JUMP TO THE PROJECTION SCREENS CHAPTER

Lightboxes

Moss Radiance™

Let the graphics shine. Tensioned fabric designed for backlit applications delivers vivid color and even illumination across the surface. A sewn-in, PVC-free gasket secures the fabric into the frame channel for a smooth, evenly tensioned finish.

RENTAL STANDARD

- **Blockout liner**

OPTIONS FOR PURCHASE

- **Custom dye-sublimation printing**
- **Specialty fabrics**

JUMP TO THE LIGHTBOXES CHAPTER

Modular Wall System

EZ Fabric Wall System®

One continuous look. Panels connect edge to edge, with fabric graphics spanning multiple panels, wrapping around corners and continuing across doors. Add rear illumination for extra impact, all without interrupting the design.

RENTAL STANDARD

- **Unprinted white, wrinkle-resistant, opaque fabric**
- **Sewn-in, PVC-free gasket around fabric perimeter**
- **Front-surface fabric with exposed metal frame depth**
- **Continuous graphic flow across connected panels and around corners**

OPTIONS FOR PURCHASE

- **Custom dye-sublimation printing**
- **Specialty fabrics**

SELF-STANDING PANELS & WALLS

Shape the space.

From a whisper to a wow. Use one element on its own or several working together. Mix, match and turn your vision into a memorable live moment for your brand or your client's.

PANEL VS WALLS

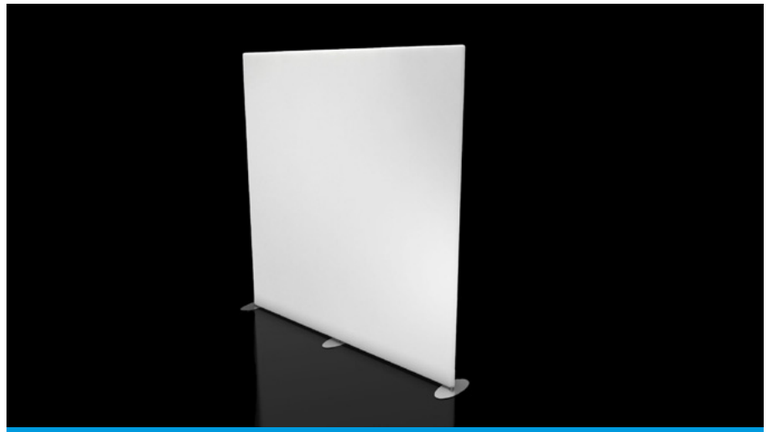

The distinction is width. Panels are narrower elements that can stand alone or combine into larger compositions. Walls are wider, providing greater graphic coverage and architectural presence within a single element.

FLAT PANEL – MOSS CLASSIC ROUND®

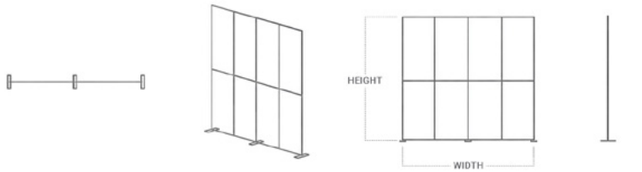

Moss Classic Round®
FRAME & KIT

Pillowcase–Style
FABRIC FINISHING

The everyday workhorse. A clean, flat panel that divides a room, points the way or carries your graphic, in nine sizes up to 20 feet wide.

AVAILABLE SIZES (WIDTH X HEIGHT)

4'x8'	48"x96"
6'x12'	72"x144"
8'x8'	96"x96"
10'x8'	120"x96"
10'x10'	120"x120"
12'x8'	144"x96"
12'x12'	144"x144"
16'x8'	192"x96"
20'x8'	240"x96"

TOP-DOWN VIEW | ISOMETRIC VIEW | FRONT VIEW | SIDE VIEW

FLAT PANEL – MOSS GROOVE®

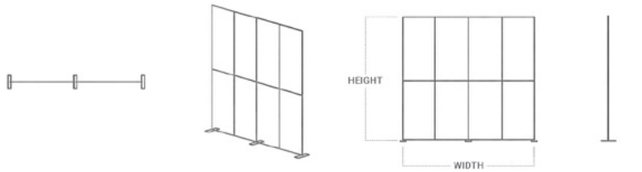

Moss Groove® Square
FRAME & KIT

Tensioned Fabric–Style
FABRIC FINISHING

When the graphic is the point. A precision square frame holds large format SEG fabric smooth, taut and nearly frameless.

AVAILABLE SIZES (WIDTH X HEIGHT)

10'x8'	120"x96"
20'x8'	240"x96"

TOP-DOWN VIEW | ISOMETRIC VIEW | FRONT VIEW | SIDE VIEW

TAPERED FLAT PANEL

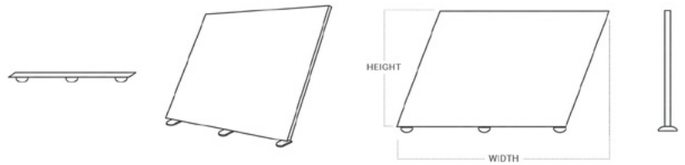

Moss Thick Wall Round
FRAME & KIT

Pillowcase–Style
FABRIC FINISHING

A flat panel with an angled top or bottom edge, for backdrops that need more energy than a rectangle. Stabilizing baseplates keep it steady.

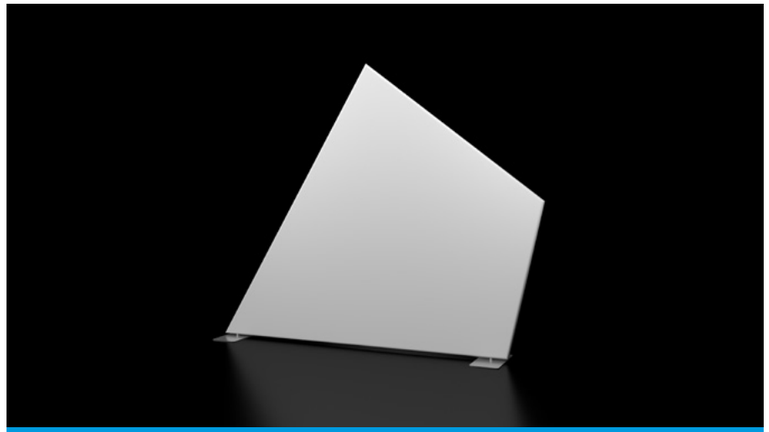

AVAILABLE SIZES (WIDTH X HEIGHT)

12'x12'	144"x144"
15'x12'	180"x144"

TOP-DOWN VIEW | ISOMETRIC VIEW | FRONT VIEW | SIDE VIEW

MOSS RENTS CATALOG. © 2026 MOSS HOLDING COMPANY. V20261

MOUNTAIN PANEL

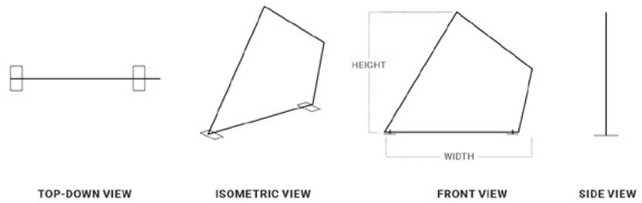

Moss Thick Wall Round
FRAME & KIT

Pillowcase–Style
FABRIC FINISHING

A skyline for your stage. The peaked top edge turns a backdrop into a landmark, indoors or out.

AVAILABLE SIZES (WIDTH X HEIGHT)

12'x9'-9" | 144"x117"

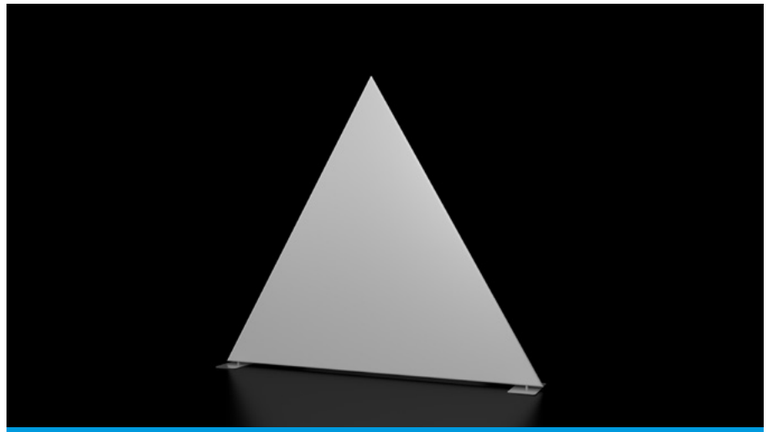

TOP-DOWN VIEW | ISOMETRIC VIEW | FRONT VIEW | SIDE VIEW

MOSS MOUNTAIN PANEL | PHOTO COURTESY OF RACE CASCADIA

MOSS RENTS CATALOG. © 2026 MOSS HOLDING COMPANY. V20261

ISOSCELES TRIANGLE PANEL

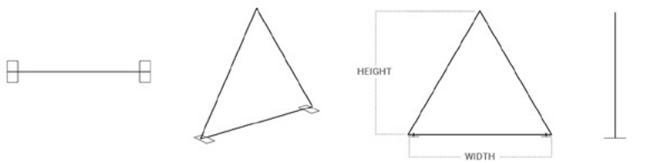

Moss Thick Wall Round
FRAME & KIT

Pillowcase–Style
FABRIC FINISHING

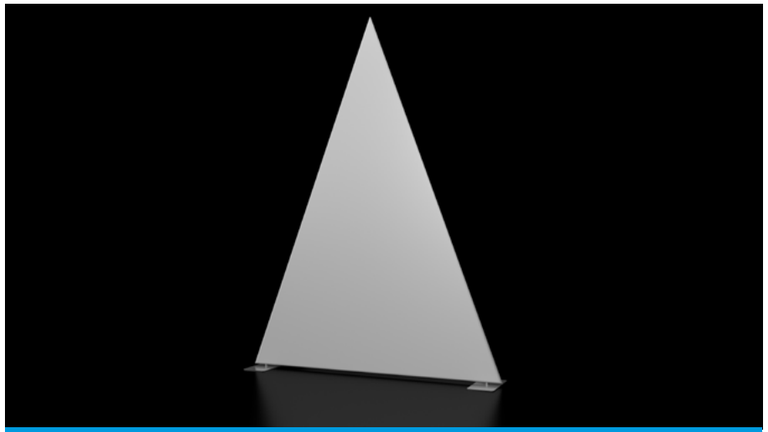

Point the way, boldly. The triangular geometry reads from across the room, so it works hard as signage and wayfinding.

AVAILABLE SIZES (WIDTH X HEIGHT)

12'x10'-6" | 144"x126"

TOP-DOWN VIEW | ISOMETRIC VIEW | FRONT VIEW | SIDE VIEW

ACUTE TRIANGLE PANEL

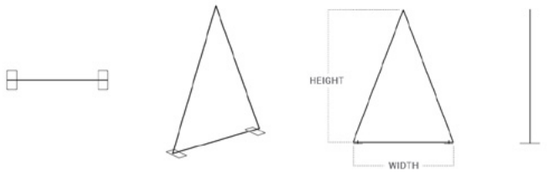

Moss Thick Wall Round
FRAME & KIT

Pillowcase–Style
FABRIC FINISHING

Tall, sharp and hard to miss. A narrow triangle that adds height and edge on the floor or overhead.

AVAILABLE SIZES (WIDTH X HEIGHT)

10'x12' | 120"x144"

TOP-DOWN VIEW | ISOMETRIC VIEW | FRONT VIEW | SIDE VIEW

PARALLELOGRAM PANEL

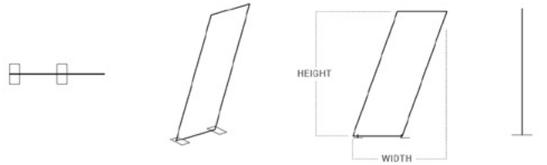

Moss Thick Wall Round
FRAME & KIT

Pillowcase–Style
FABRIC FINISHING

A rectangle with a lean. Angled sides give a stage or backdrop a sense of motion a straight panel can't.

AVAILABLE SIZES (WIDTH X HEIGHT)

8'x10'-6" | 96"x126"

TOP-DOWN VIEW | ISOMETRIC VIEW | FRONT VIEW | SIDE VIEW

MOSS RENTS CATALOG. © 2026 MOSS HOLDING COMPANY. V20261

SUNSET PANEL

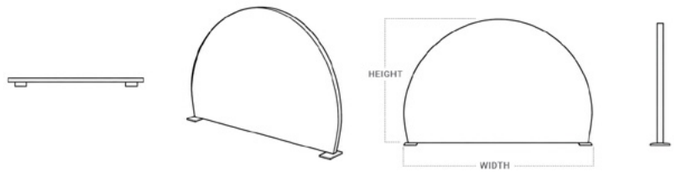

Moss Thick Wall Round
FRAME & KIT

Pillowcase–Style
FABRIC FINISHING

The focal point behind the speaker. A full circle with a straight bottom edge, like a sun setting on the horizon, made for stages, exhibit spaces and event backdrops.

AVAILABLE SIZES (WIDTH X HEIGHT)

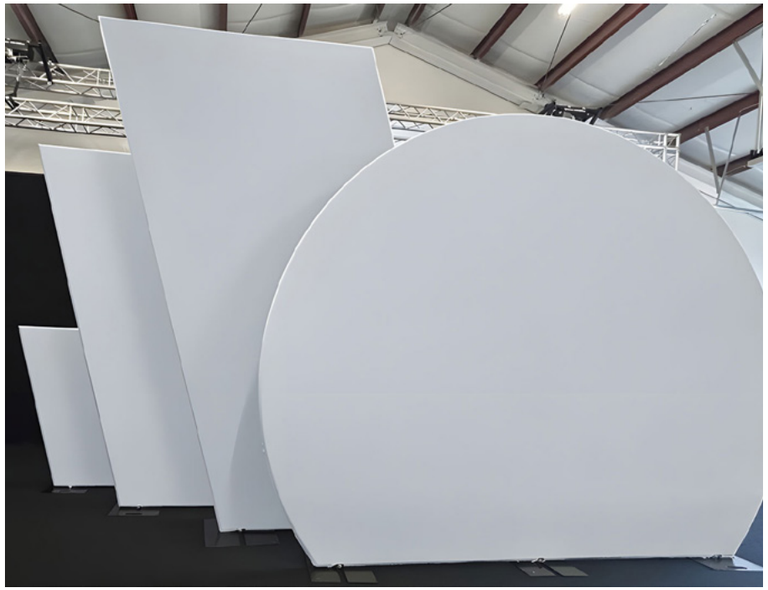

10'x8' | 120"x96"

TOP-DOWN VIEW | ISOMETRIC VIEW | FRONT VIEW | SIDE VIEW

MOSS SUNSET PANEL

SUNSET SEMI-CIRCLE PANEL

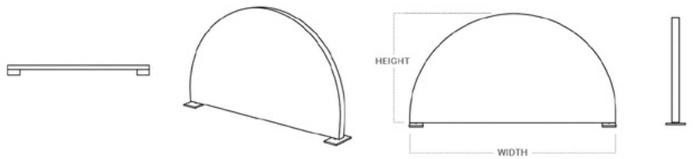

Moss Thick Wall Round
FRAME & KIT

Pillowcase–Style
FABRIC FINISHING

Wrap a lounge or frame a stage. The half circle pulls people in and gives a space an edge.

AVAILABLE SIZES (WIDTH X HEIGHT)

16'x8' | 192"x96"

TOP-DOWN VIEW | ISOMETRIC VIEW | FRONT VIEW | SIDE VIEW

MOSS RENTS CATALOG. © 2026 MOSS HOLDING COMPANY. V20261

QUARTER-ROUND PANEL

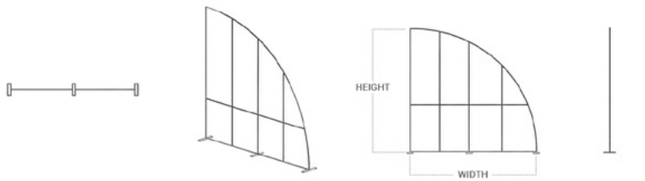

Moss Classic Round®
FRAME & KIT

Pillowcase–Style
FABRIC FINISHING

Soften the edge of a layout. A clean quarter circle for transitions between spaces, approachable from every side.

AVAILABLE SIZES (WIDTH X HEIGHT)

8'x8'	96"x96"
12'x12'	144"x144"
16'x16'	192"x192"

TOP-DOWN VIEW | ISOMETRIC VIEW | FRONT VIEW | SIDE VIEW

MOSS QUARTER-ROUND PANEL

HANG TEN FORM

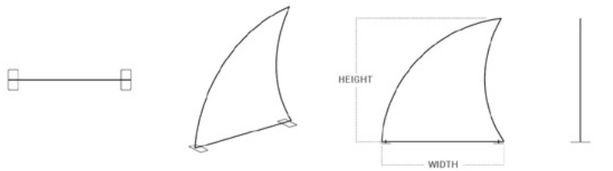

Moss Classic Round®
FRAME & KIT

Pillowcase–Style
FABRIC FINISHING

A sweeping sculptural wave silhouette that brings motion to stages, backdrops and event spaces.

AVAILABLE SIZES (WIDTH X HEIGHT)

12'x12' | 144"x144"

TOP-DOWN VIEW | ISOMETRIC VIEW | FRONT VIEW | SIDE VIEW

CURVED PANEL – MOSS CLASSIC ROUND®

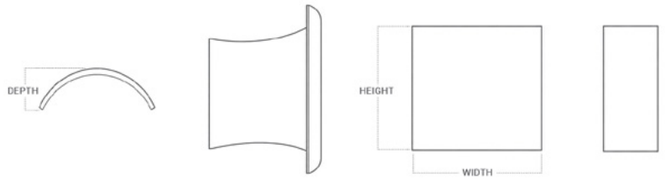

Moss Classic Round®
FRAME & KIT

Pillowcase–Style
FABRIC FINISHING

A gentle curve that softens any backdrop. Use one on its own or run several together for a flowing wall.

AVAILABLE SIZES (WIDTH X HEIGHT X DEPTH)

4'x8'x4'	48"x96"x48"
8'x8'x8'	96"x96"x96"
10'x8'x10'	120"x96"x120"
20'x8'x20'	240"x96"x240"

TOP-DOWN VIEW | ISOMETRIC VIEW | FRONT VIEW | SIDE VIEW

CURVED PANEL – MOSS GROOVE®

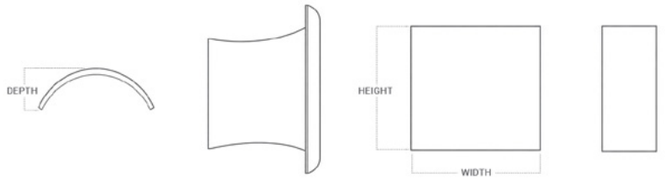

Moss Groove® Square
FRAME & KIT

Tensioned Fabric–Style
FABRIC FINISHING

Guide traffic and define space with a curve. PVC free gasketed SEG fabric fits the Moss Groove® frame for a crisp, evenly tensioned face.

AVAILABLE SIZES (WIDTH X HEIGHT X DEPTH)

PROJECTION SCREENS

Nothing to see here.
Not even the frame.

Clean edges. Expansive surfaces. Plenty of room for graphics, projection and ideas that deserve the whole canvas.

Every Moss product can take a projection, but these are designed to disappear behind one. Built for hanging installation, each screen holds still, sits flush and gives the projected image nothing to compete with. Ready to rig, ready for the stage.

IN THIS SECTION

33 Borderless Panel

Borderless Panel–Pill Shaped

JUMP TO THE NEXT SECTION: LIGHTBOXES

LET THE CONTENT TAKE THE STAGE

Fabric wraps across the face and sides of a heavy duty 2" square tube frame, then secures into channels at the back. No framed border means your projection runs edge to edge and nothing competes with the show. Three rectangular sizes are proportioned 16:9, the standard video format, and the pill shape reaches 30 feet wide for the biggest moments. You bring the content. We deliver the canvas.

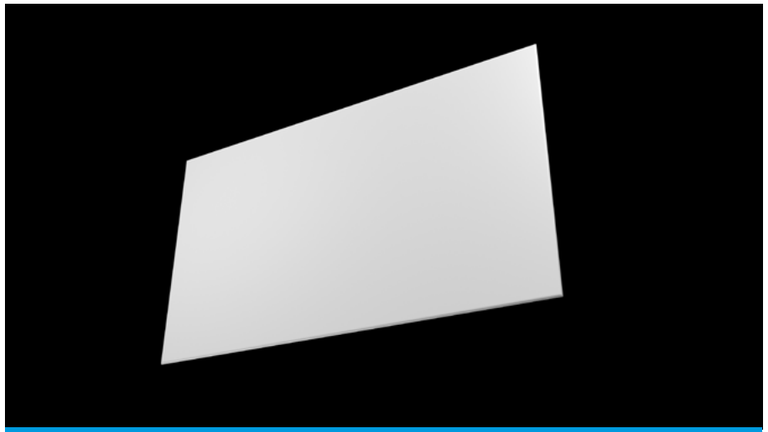

WRAPPED FABRIC
No visible border, so your image runs edge to edge.

16:9 PROPORTIONS
Matches standard video, so content fills the screen.

UP TO 30 FEET WIDE
Big enough for the biggest stage.

HEAVY DUTY SQUARE TUBE FRAME
A clean, stable surface to hang.

RENTAL
Bring it in for the run, hand it back when the show wraps.

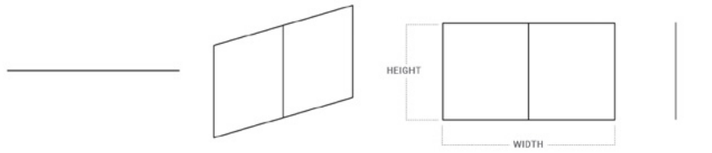

BORDERLESS PANEL

Square Tube	Borderless SEG
FRAME & KIT	FABRIC FINISHING

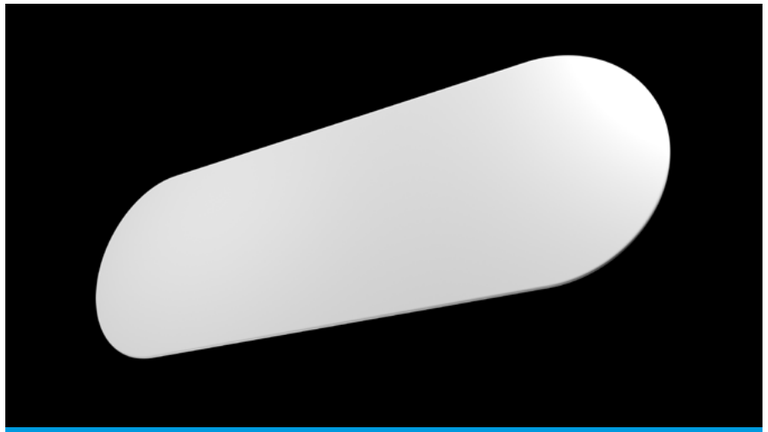

Fabric wraps completely around the frame, concealing the structure and creating a clean, uninterrupted surface for edge to edge projection.

AVAILABLE SIZES (WIDTH X HEIGHT)

10'x5'-7.56"	120"x67.56"
16'x9'	192"x108"
20'x11'-3"	240"x135"

TOP-DOWN VIEW | ISOMETRIC VIEW | FRONT VIEW | SIDE VIEW

BORDERLESS PANEL – PILL SHAPED

Square Tube	Borderless SEG
FRAME & KIT	FABRIC FINISHING

Fabric wraps around the front of the frame to conceal the structure and create a clean surface for edge to edge projection. Along the curved edge, the fabric secures into a side mounted SEG channel for a smooth, tailored fit.

AVAILABLE SIZES (WIDTH X HEIGHT)

30'x10'	360"x120"

LIGHTBOXES

Steal the spotlight.

Bring graphics to life with brilliant, even illumination and serious visual impact. Easy to assemble frames, tool free graphic changes and seamless graphics up to 10 feet make it simple to go big and switch things up when you need to.

THE LIGHT BEHIND THE LOOK

Every Moss lightbox pairs proprietary LED lighting with a fast-assembly frame, so graphics glow evenly from edge to edge while staying energy efficient. They're ETL listed, and easy setup and graphic changes keep installation costs down.

EZ FABRIC WALL SYSTEM®

Build an environment. One wall, or a hundred.

Create a place where people gather, connect and have meaningful conversations. Combine walls, corners, doors and lightboxes to shape the space, brand every surface, and immerse attendees in your story.

EZ Fabric Wall brings it all together in one flexible modular rental system: configure it for this event, reimagine it for the next.

SEE THE EZ FABRIC WALL SYSTEM OVERVIEW VIDEO ON YOUTUBE

37 EZ Wall™ Overview

38 EZ Wall™ Flat Panel

EZ Wall™ Curved Panel

39 EZ Wall™ Graphic Door

EZ Wall™ Illuminedge™ Lightbox

40 EZ Wall™ Components

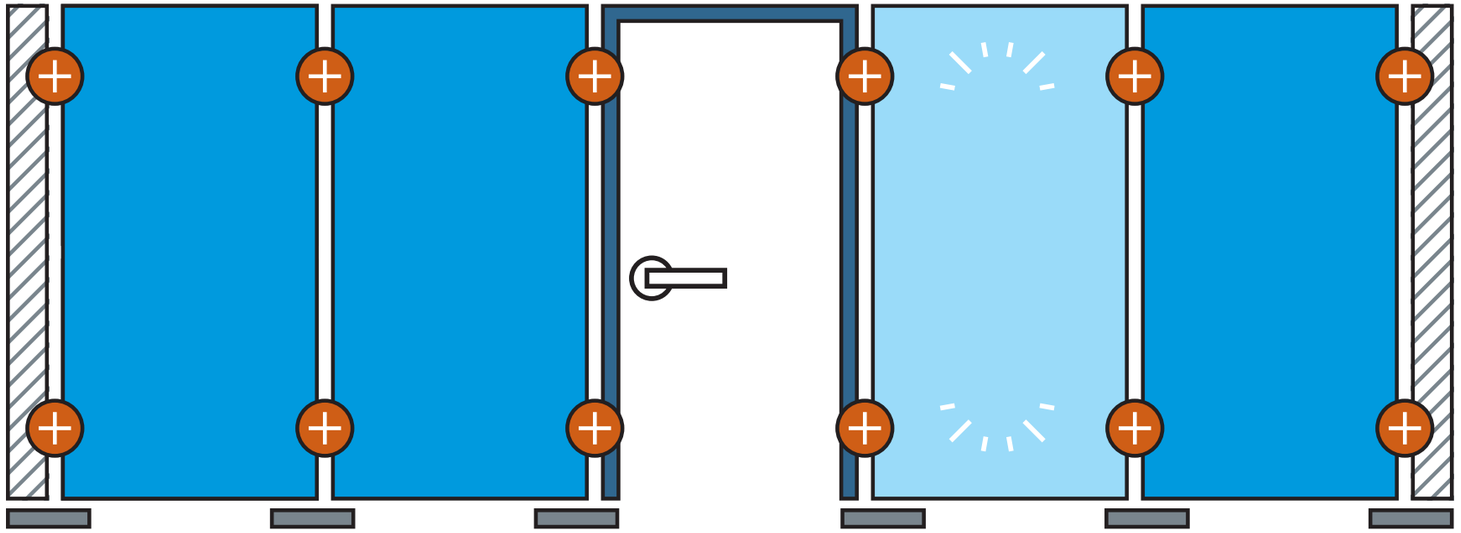

ONE LOCK. EVERY CONNECTION. FEWER LABOR HOURS.

THE MOVEABLE LOCK

The Moveable Lock is the unsung hero of the EZ Wall system. Every wall, corner, door, lightbox and base joins the same way, so there's nothing new to figure out at the next connection. One Torx tool (included), no small parts to chase, and a secure connection in seconds, whether you're joining two panels or turning a corner into a multi-wall build. Leveling feet adjust for uneven floors, so walls stand straight wherever you land.

All that speed adds up. Faster setup means fewer labor hours on the invoice, and that's savings you'll see.

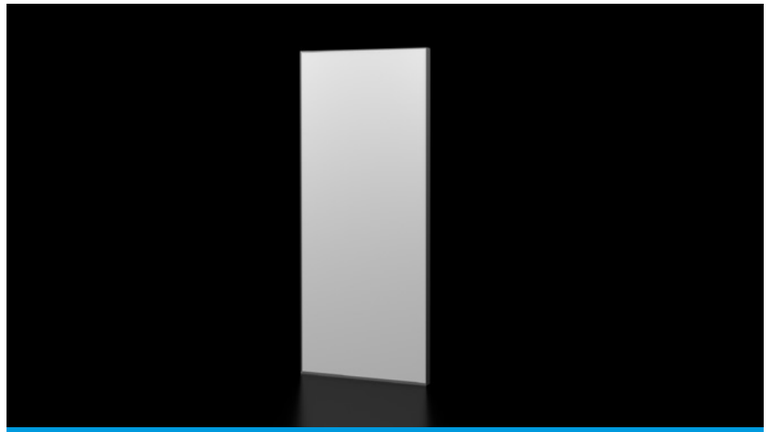

ONE BRILLIANT SYSTEM. ENDLESS POSSIBILITIES.

FIVE COMPONENTS. ONE WAY TO CONNECT.

Panels, doors, lightboxes, corners and base hardware all speak one language. Dress the panels, doors and lightboxes in SEG fabric, panel by panel or as one seamless graphic running the full length of the wall, as quiet or as bold as the moment calls for. Straight or curved, every frame connects the way the last one did, so every piece works with every other piece. Same system, every time.

EZ WALL™ COMPONENTS

COLUMNS, CORNERS & TRIM

CORNER COLUMN – 4-WAY

Joins up to four EZ Wall™ runs at one column, for three or four way corners and intersections.

CORNER COLUMN – SMOOTH

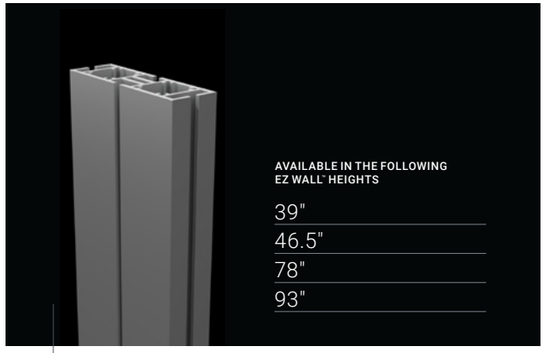

Builds a 90 degree corner with two smooth faces, for a clean finish on the outside of the turn.

CORNER COLUMN – HIDDEN

Builds a 90 degree corner and hides the structural column behind the graphic, with gasketed fabric edges for a clean corner. Works with EZ Wall™ and Moss Groove® panels, including two story builds.

ENDCAP

Smooth, low-profile trim that caps the exposed end of an EZ Wall™ run. Also finishes the top edge of pony walls.

LOW-PROFILE ACCESSORY COLUMN

Slim column that fits between EZ Wall™ panels to attach monitors, headers, acrylic or glass. Channels on all four sides allow multiple configurations, and a multi-wall fabric cover can span right over it.

STABILIZING BASEPLATES & BUMPER FEET

BASEPLATE

A low-profile baseplate that provides stability for freestanding EZ Wall™ panels. Keeps walls securely supported with a clean, minimal footprint.

AVAILABLE IN THE FOLLOWING SIZES

3.9"x15.74"
4.9"x23.6"

BUMPER FOOT WITH LOCK

An adjustable leveling foot with an integrated lock for secure positioning. Designed for the original EZ Wall™ system, it connects at designated frame locations.

SNAP IN FOOT

A snap-in leveling foot for EZ Wall II frames. Fits directly into the frame groove, allowing flexible placement and easy adjustment for uneven floors.
