STAGE SETS

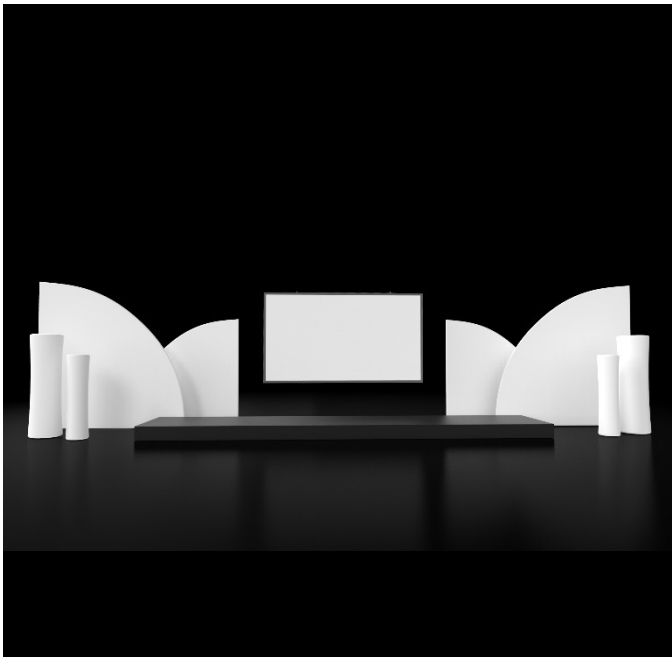

Our rental stage sets are designed to transform a stage into an inspired visual destination. Showcase bold dimension and texture for stages of any size.

All rental stage sets feature Aluminum framed Projection Screens optimized for 16:9 content with a black printed boarder to assist with focusing.

Have your own screens in stock, or plan to use monitors? Not a problem, simply request a quote with that item omitted.

[TABLE OF CONTENTS](#)

HILLSIDE STAGE

COMPONENTS:

Projection Screen 16:9

(1) 18'2" w x 10'2" h

Rounded Square Wall

(2) 12' w x 12' h

DIVIDERS & WALLS

TEXTURED

Champagne Textured Panel

Size:

8'h x 8'w

Colors:

White

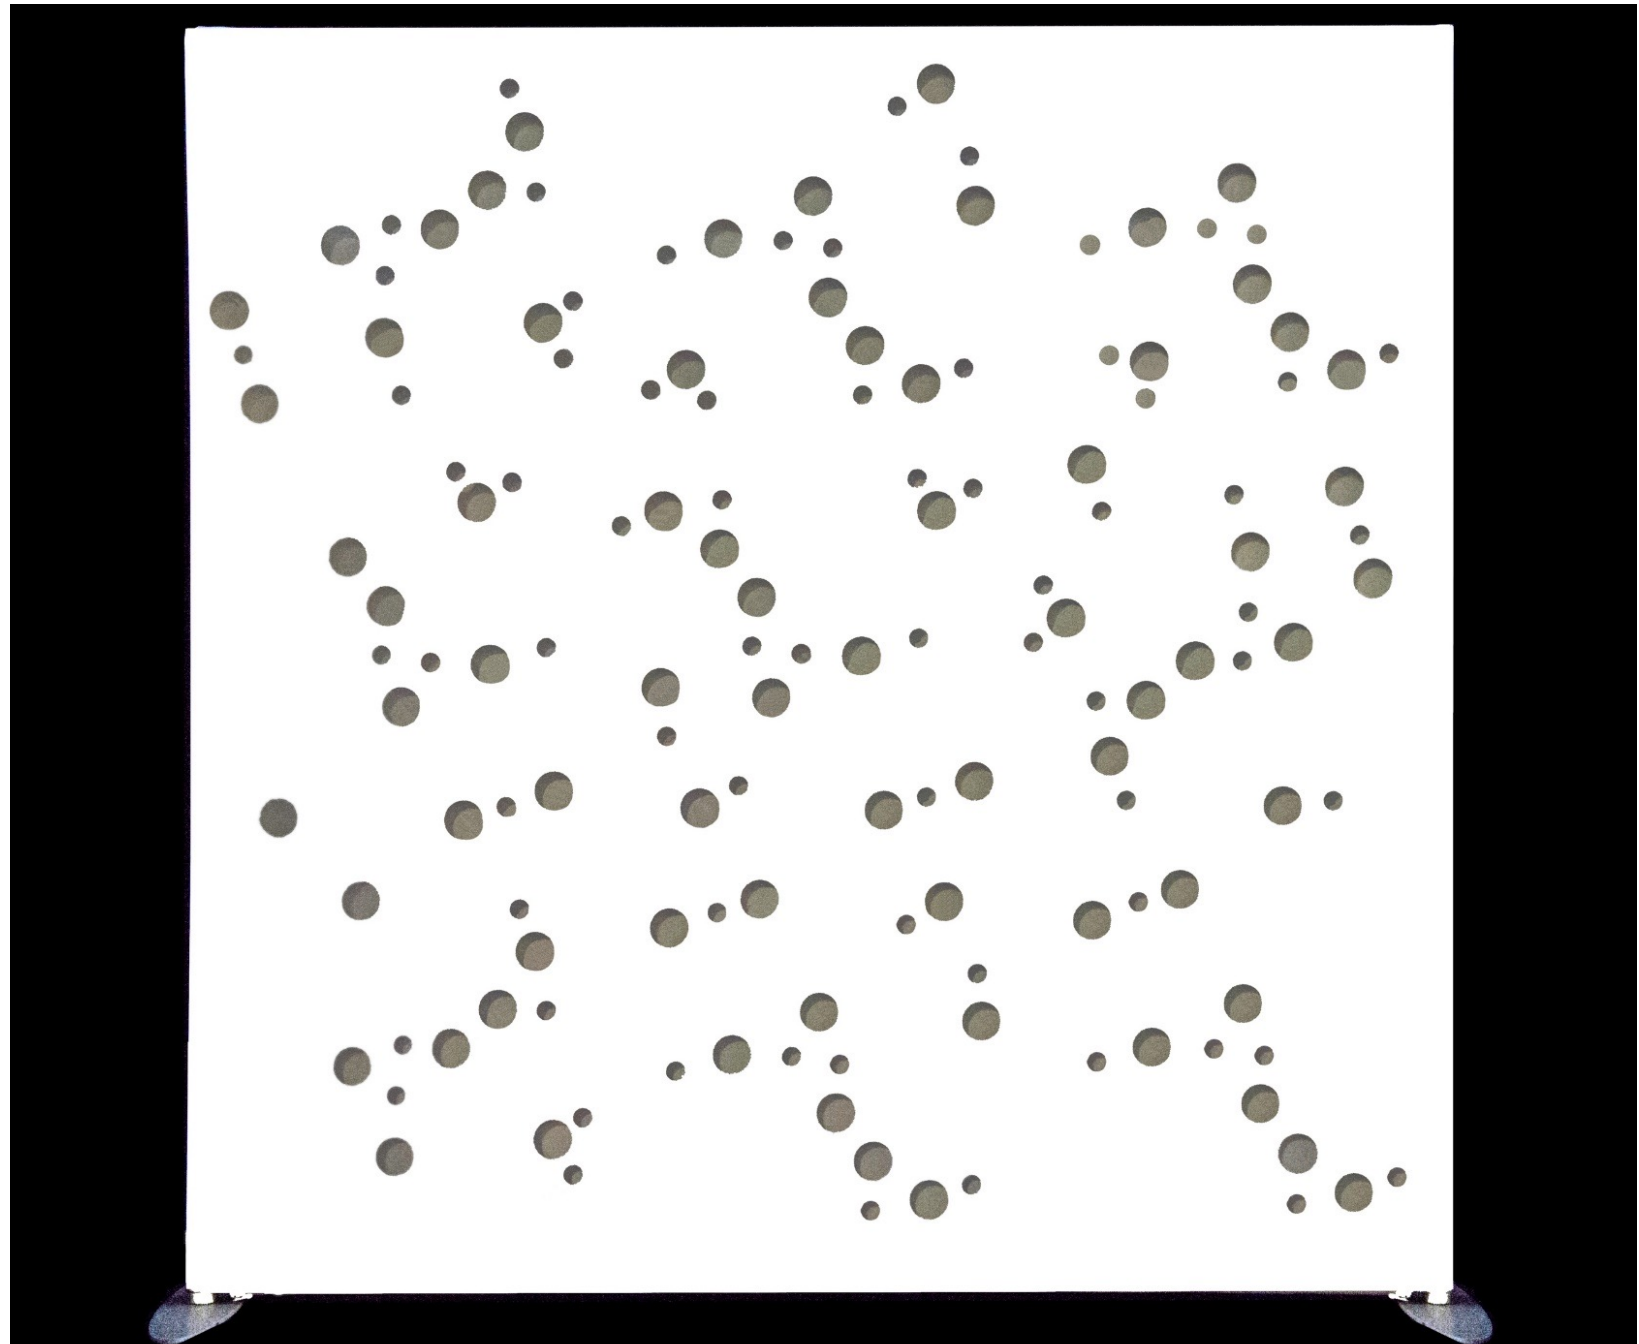

Details:

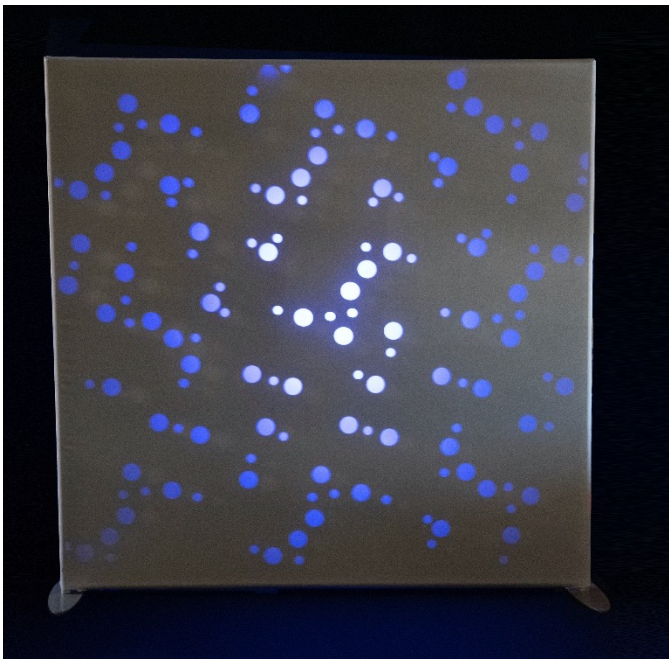

This product is designed to create a textured backdrop with the fastest install time on the market, and fewer seams in the pattern that tile based textured backdrops.

Champagne pattern is standard in our rental line; contact us about custom patterns or applying this technique to other frames.

The patterned side is Moss BarrierTex fully opaque fabric; the rear side is Moss BaseTex semi-opaque fabric. Lighting is not included.

See next page for examples of product in use.

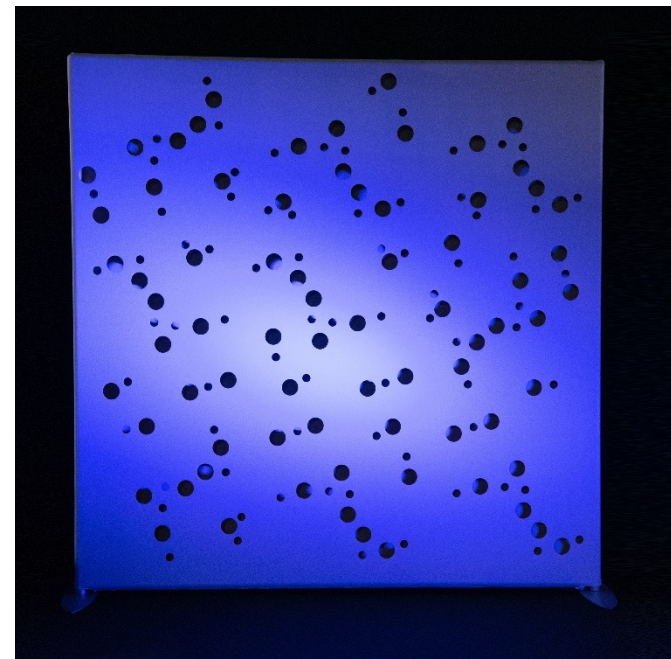

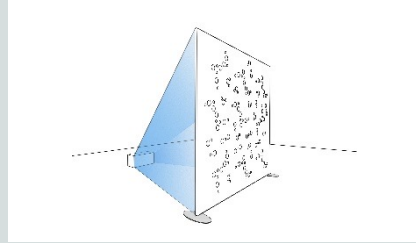

BACKLIT

Sizes:
8'w x 8'h

Notes:

Create an isolated glow. The rear semi-opaque side glows with light and front patterned opaque layer creates a glowing dot effect where the holes are cut.

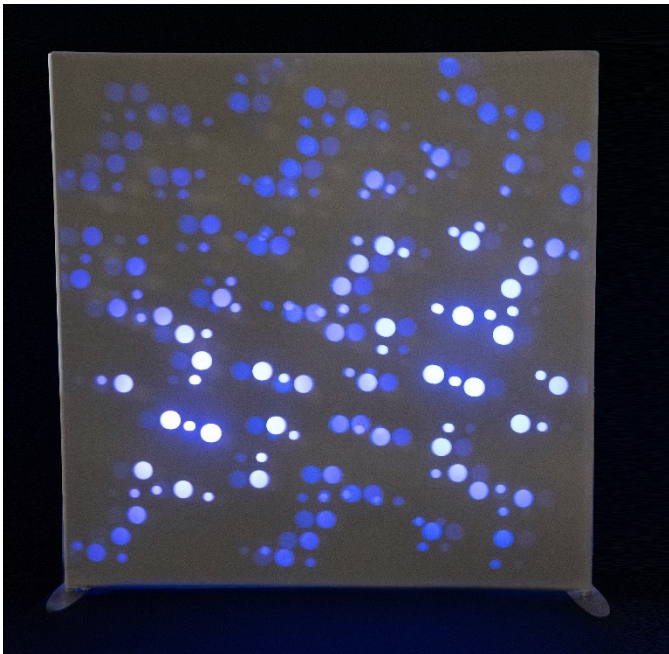

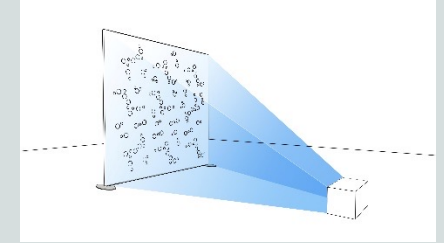

FRONT LIT

Sizes:
8'w x 8'h

Notes:

The starkest visual pattern. Light shines on the patterned opaque front side and creates shadows and dimmer lit areas where the holes are cut.

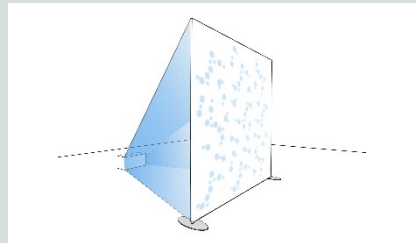

FLIP LIT

Sizes:
8'w x 8'h

Notes:

An ethereal layered pattern. The patterned opaque layer is on the back side to act as a lighting gobo. Light tracks through those holes to project Dots on the semi-opaque layer.

PANELS & SIGNS

HANGING

Dimensional, curved and flat tension fabric products create lightweight shapes that are perfect for ceiling treatments, signage, kiosk backers or hanging walls.

Hang them individually or work with our design team to create a hanging cluster or sculpture. Printing your custom message or solid color arrays is a snap, as is the installation.

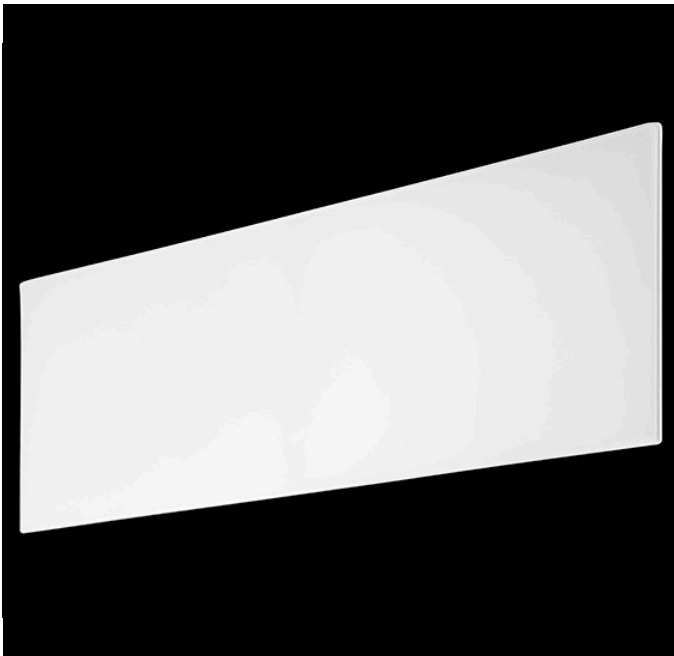

PROJECTION SCREEN 16:9

HUDDLE SPACES

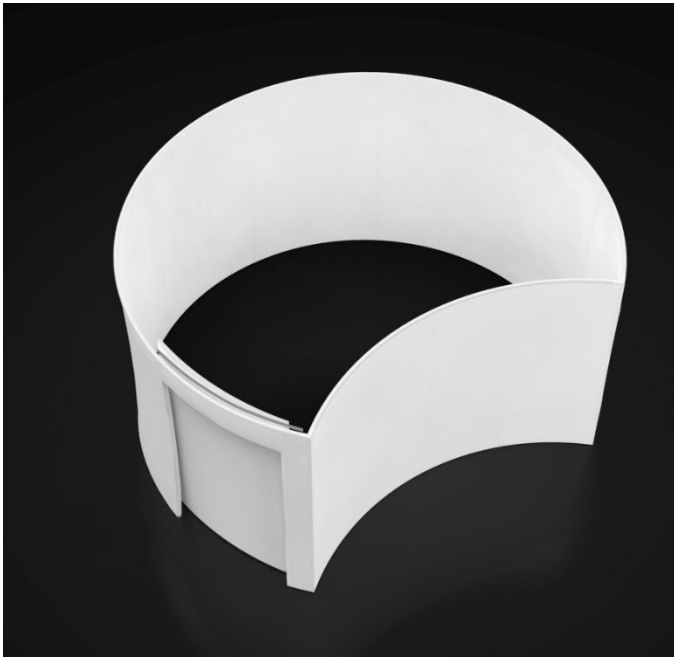

Meet anywhere. Our huddle spaces provide organic shapes meeting rooms and give you the creative ability to nest multiple rooms together.

Sliding interior door is large enough for lounge furniture access and removes the need for hinged door clearance.

Customize the cover with branding to offer sponsorship areas or integrated wayfinding.

FREQUENTLY ASKED QUESTIONS

Q: Can I project on your products?

A: Absolutely. Our products are designed with lighting and projection in mind.

Q: Do the products come with lighting?

A: Not unless they are specified as lit items, but we can recommend options on the market.

Q: Are the products easy to assemble?

A: Yes, all our products are easy to assemble and come with detailed instructions.

Q: Do you offer design services for rentals?

A: Yes, we're happy to work with you to develop a design solution.

Q: Are rental products available for purchase?

A: Yes, these are a sample of our standard products and we are experts in custom solutions.

Q: Where can I find more information about the products and/or CAD files?

A: Download art templates and 3dmodels at: <https://www.mossinc.com/downloads/> and browse products here: <https://www.mossinc.com/products/>

Q: What are the rental term periods?

A: 10 days or 30 days.

Q: Can the products be used outdoors?

A: Our products are intended for indoor use, but your account executive can talk to you about custom solutions for outdoor applications.

Q: Is shipping included in the rental price?

A: Shipping and tax are not included in the product's rental price but can be listed separately on the quote.
