VISUAL USER GUIDE

Truss Banner - Slipcover
Generic Installation Guide

1

Assemble your desired truss structure, adhering to design spec and the most strict truss safety standards. Ballasting pictured below is representational only.

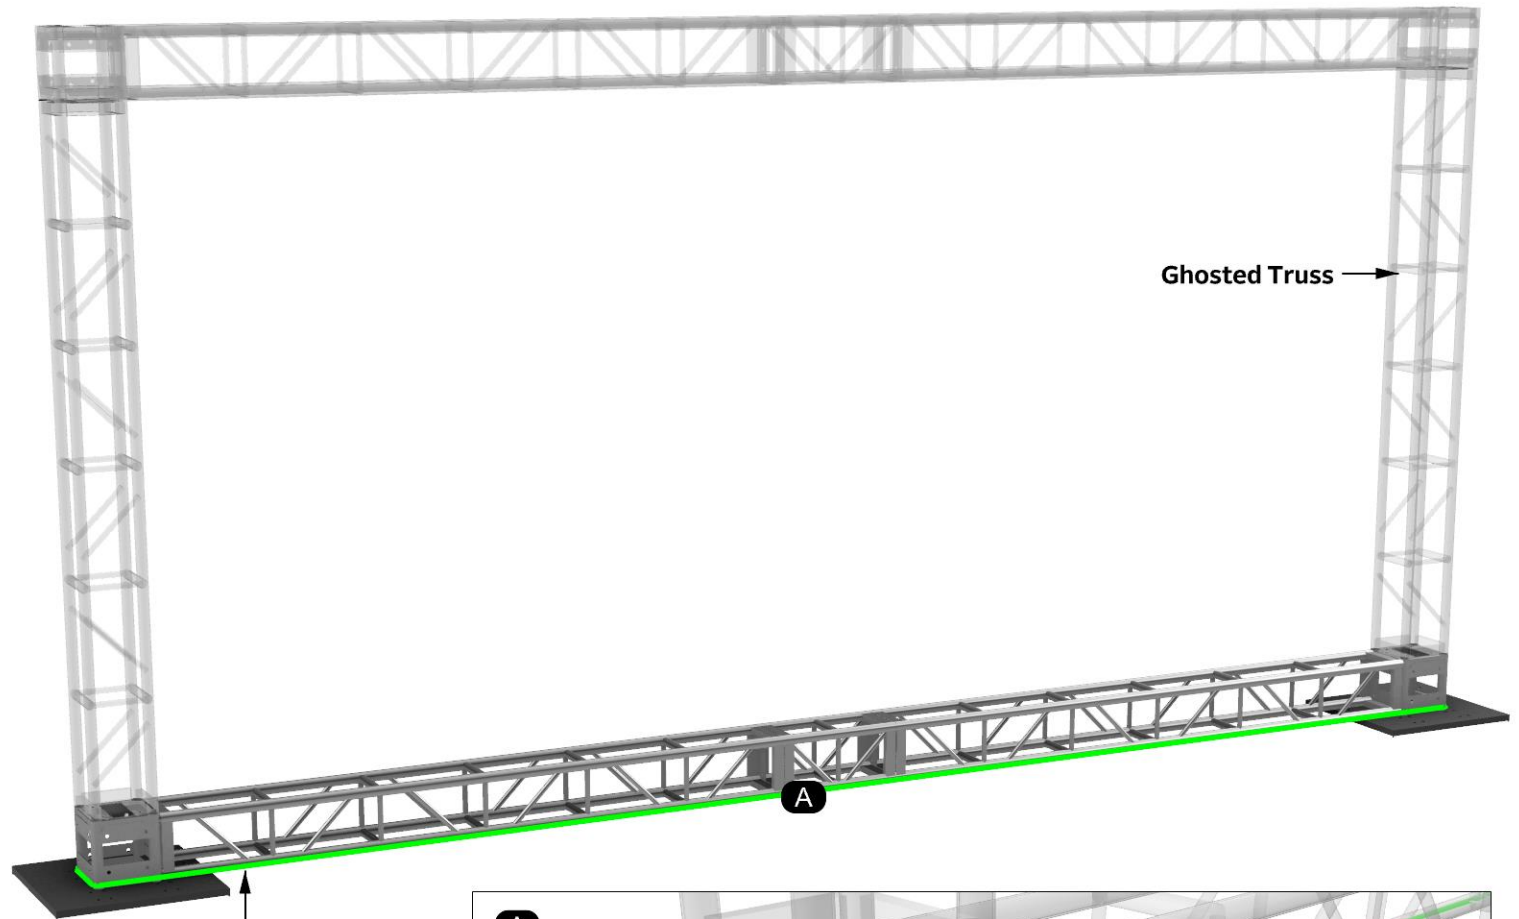

Example truss shown is 12" Imperial Box Truss
Example baseplate REPRESENTATIONAL ONLY

Front View

2

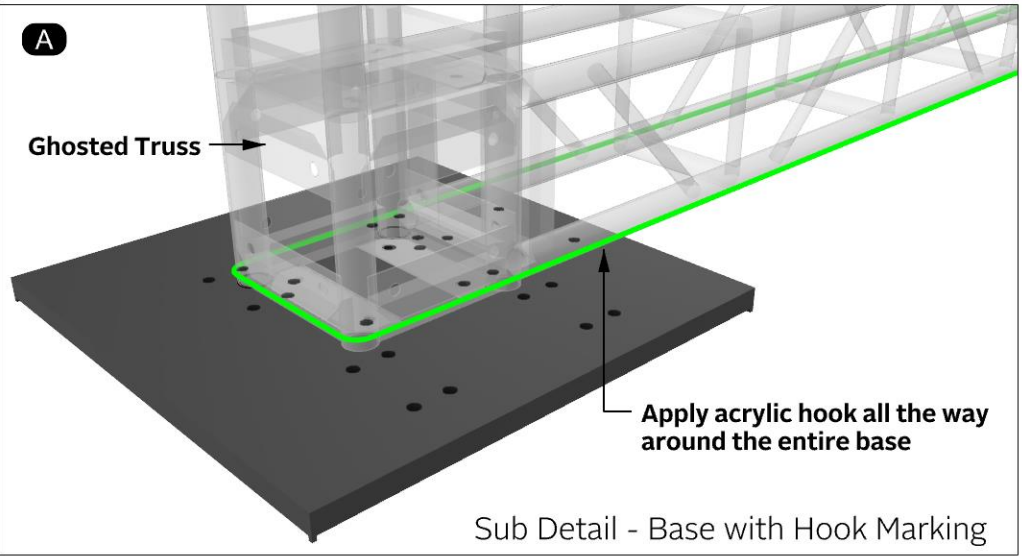

Apply stick-on acrylic hook around the base of the structure. This will provide a surface for the Truss Banner to adhere to.

Ghosted Truss

A

Note:
If horizontal truss is not present,
use of pipe, lumber or other
structural building material can be
used to create a surface for the
acrylic hook to adhere to.

Ghosted Truss

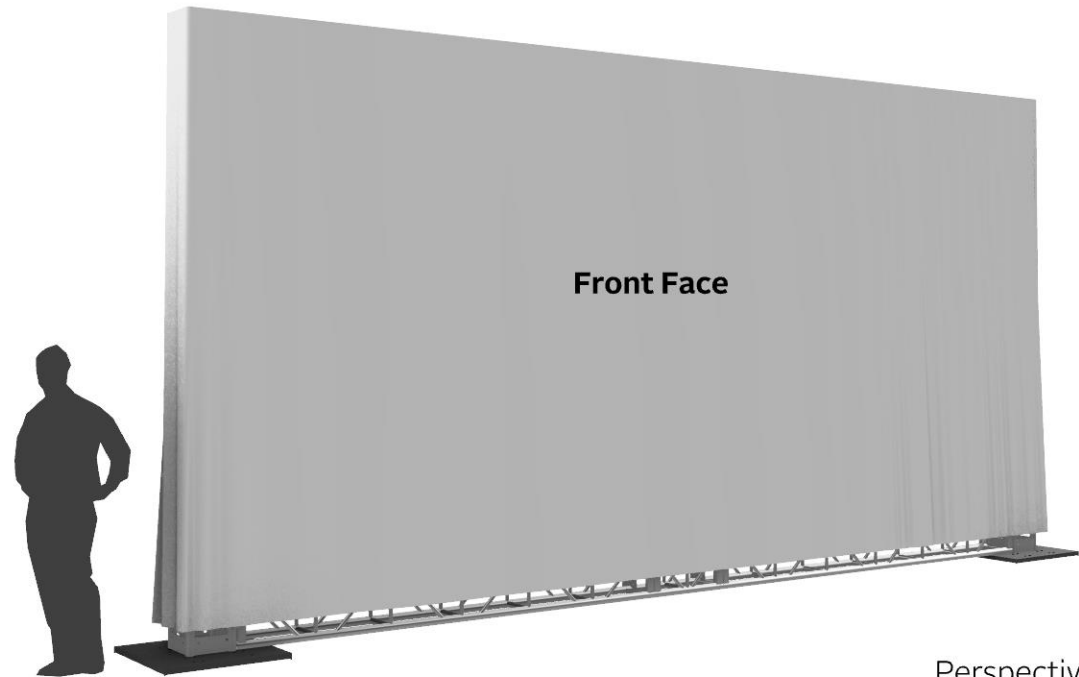

Apply acrylic hook all the way
around the entire base

Sub Detail - Base with Hook Marking

3

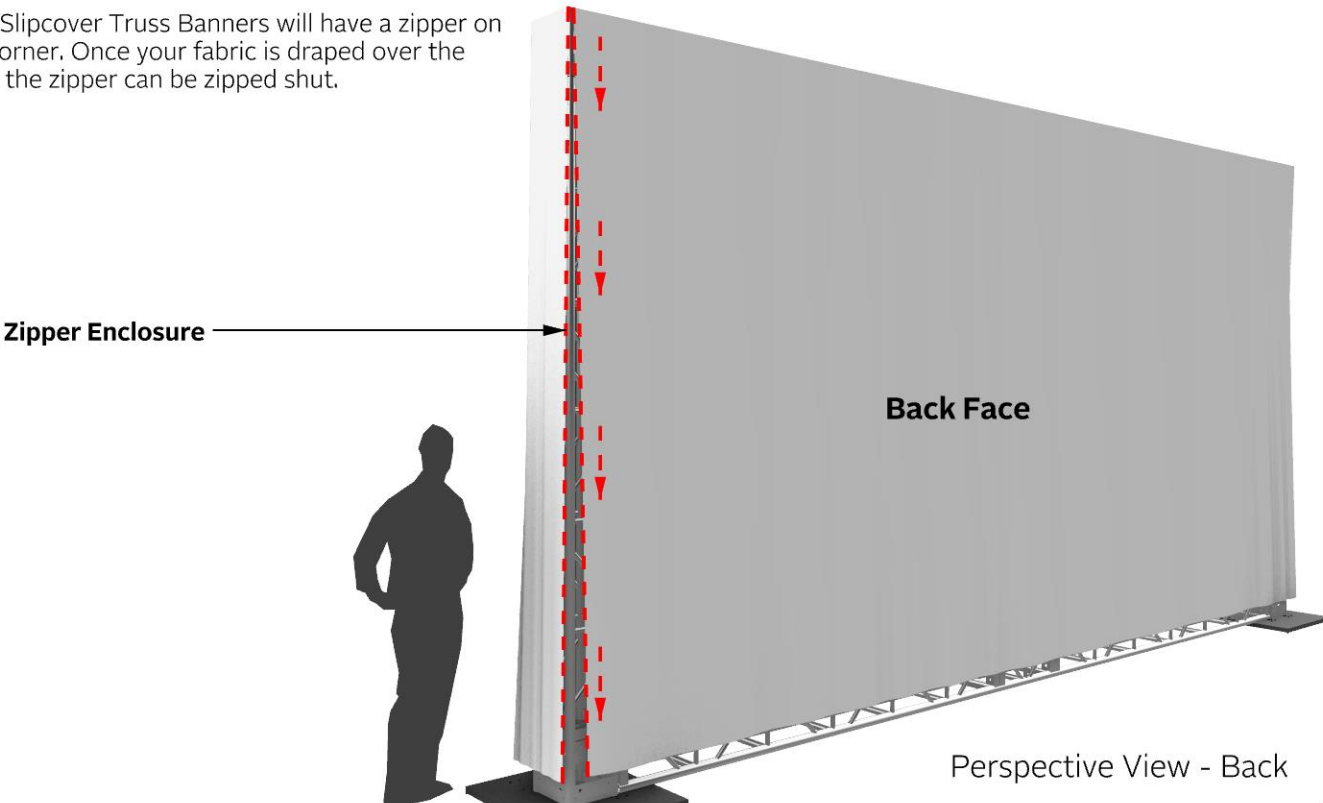

Loosely drape the fabric of your Slipcover Truss Banner over your constructed truss.

Perspective View - Front

4

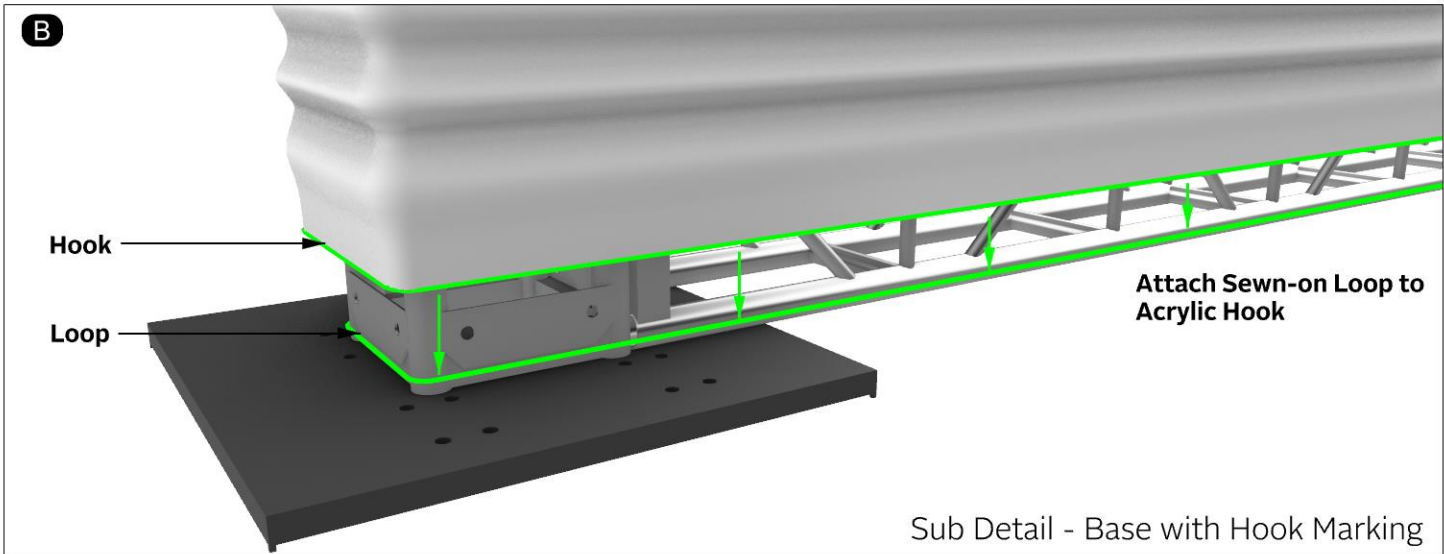

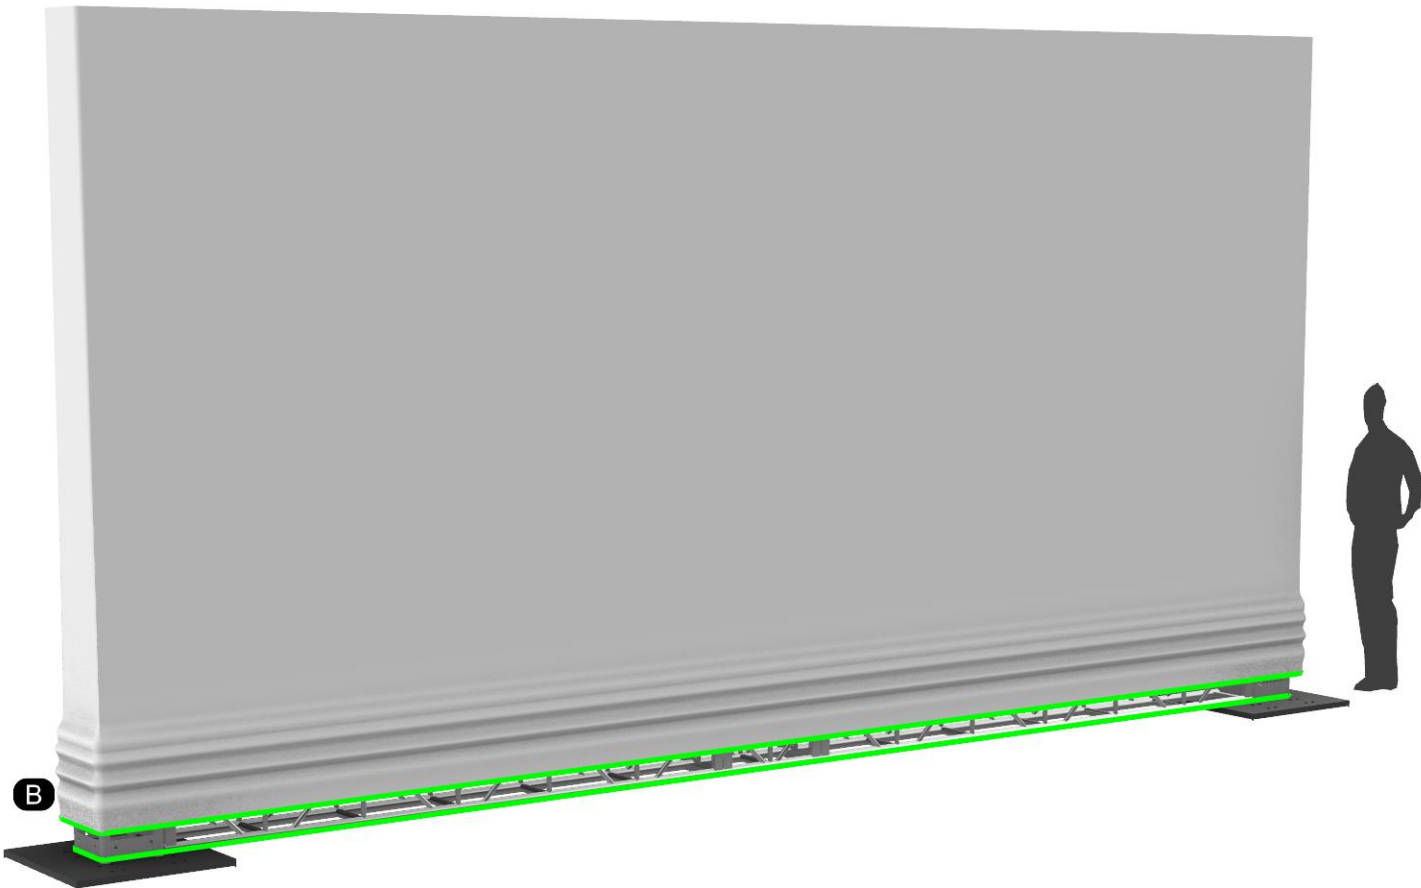

Most Slipcover Truss Banners will have a zipper on one corner. Once your fabric is draped over the truss, the zipper can be zipped shut.

Perspective View - Back

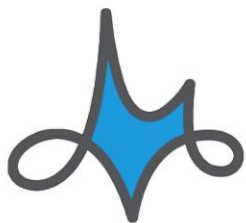

5

Attach the sewn-on loop edge to the acrylic loop edge on the truss. Most common fabric truss banners will be configured to have the hook/loop running around the entire base.
